## MANY PROBLEMS PREVENT SIGNING PEACE PACT NOW

Austrian and Bulgarian Questions Hold Up Treaty Negotiations

## MANY ISSUES ARE GIVEN

CLOSE STUDY BY ENVOYS

French Delegate Denies Time Has Been Wasted at Conference

## ASSOCIATED PRESS TELEGRAM

Paris, Sunday, Feb. 17.—Premier Borden's speech last night, in which he criticized the delay in consummating peace while the troops are anxious to return to their homes, has made an undoubted impression here.

The same view is said to be taken by some Americans while the British are not indifferent to the demands of their territorial contingents, which are supported by the labor element of England. Stephen Pichon, in discussing of staples to an immediate peace during a talk with newspaper correspondents today said there were many reasons why the treaty could not be signed at once, even though the League of Nations project was out of the way. Many issues that will be the basis of peace, he said, were being carefully studied. Among them is disposition of many of the fragments into which the former Austrian empire has been divided and another is the treatment to be accorded Bulgaria.

The French people, he added, want peace, but they realize, at the same time, the danger of precipitate and unsatisfactory solutions.

He agreed with Premier Borden that there should be no unnecessary delay but did not share his opinion that time had been wasted at the conference. A full discussion of all questions must be permitted so that settlements which might be decided upon which would be magnanimous. Mr. Pichon said that there was no obstacle to recognizing the new German government but added that the Germans must be made to realize they have been beaten, a fact, he said, of great numbers of them do not seem to be aware.

The new leaders of Germany, he remarked, would be up for consideration within a few days.

## REFERENDUM WILL NOT APPLY TO RATIFICATION

Columbus, Feb. 17.—"The constitutional objections that are being urged in New York and other wet centers to the prohibition amendment are legal myths," said Wayne B. Wheeler, general counsel of the Anti-Saloon League of America, who has successfully represented the dry forces in their legal battles before the courts. Mr. Wheeler was in the city Saturday on his way to a speaking engagement in the West.

The proposed test case is based on the claim that 36 states had not legally ratified when Mr. Polk, the acting secretary of state made the announcement.

"Ohio and California were included among the 36 and a referendum will be called both of these states, according to the wet propaganda and for this reason they could not be counted. The contention will fail because the superior court of California has already decided that a referendum cannot be legally applied to a federal amendment, that the federal constitution controls in these matters."

"For the same reason Ohio cannot have a legal referendum on the 18th amendment. The state cannot change the federal constitution by law or by a provision in its constitution. The only way the federal constitution can be changed is to amend it in the manner provided. Consequently, a referendum on the 18th amendment in Ohio will not affect it in any way."

## SPARTACANS LOOT TOWN OVERPOWER SOLDIERS

## ASSOCIATED PRESS TELEGRAM

Berlin, Sunday, Feb. 16.—Spartan troops from nearby towns marched into Gelsenkirchen in Westphalia early this morning and overpowered the local military and police force. A portion of which went over to the Spartans. The plundering of the city followed.

The doors of houses were blown in with hand grenades and much booty was secured by the Spartans.

The Gelsenkirchen banks and the city treasury had been warned in time and saved their funds.

The raiding Spartans came from Rattlingen and Wattenscheid. Trouble had been expected in Berlin today from radical elements but up to 5 o'clock this afternoon no disturbances had been reported anywhere in the city.

The expected outbreak is said to have been snuffed in the bud by the arrest late Saturday night of eight members of a Spartan and revolutionary soldiers' union who had assembled in a hall. It was charged, to plan disturbances for today.

Gelsenkirchen is in the Westphalian mining region, six miles north of Bochum. It has a population of about 40,000.

## FLU KILLS DELEGATE TO PEACE CONFERENCE

## ASSOCIATED PRESS TELEGRAM

Paris, Feb. 17.—Lieutenant Colonel Mark Sykes, who came here with the British delegation to the peace conference is dead, following an attack of influenza.

Lieutenant Colonel Sir Mark Sykes was born March 16, 1879. He completed his education at Jesus College, Cambridge, and soon afterward entered the British army serving in the South African campaign and later being in command of various regiments in England. He wrote a number of books and was a contributor to the Journal of Reviews.

## SOCIALIST CONFERENCE EXCEEDS ALL HOPES

## ASSOCIATED PRESS TELEGRAM

London, Sunday, Feb. 16.—Arthur Henderson, the British labor leader, who has arrived here from Berlin where he attended the Socialist conference, states that the success of the conference exceeded his hopes. He said it would not be exact to say that the conference endorsed the policies of the Pacific elements of the labor parties of France and England, and declares that in his opinion the failure of allied Socialists to participate in the Stockholm conference last year was "a political error."

## SHARP'S RESIGNATION WAS EXPECTED IN PARIS

## ASSOCIATED PRESS TELEGRAM

Paris, Sunday, Feb. 16.—Announcement from Washington of the resignation of William Graves Sharp, American ambassador, was not a surprise, to his friends here, some of whom had known since November that he had asked President Wilson to resign him.

His letter, explaining that private business reasons prompted him to resign and return home permanently reached President Wilson before he sailed for France and Mr. Sharp's resignation was accepted relatively after several conversations between him and the President here. Mr. Sharp's decision to resign has been known in French official circles for weeks and the ambassador has received personally and by letter many expressions of regret that he should be leaving for America.

One of Ambassador Sharp's distinct services to President Wilson has been the sending of weekly cable letters to Washington since America's entrance in the war. These messages dwelt upon the situation in France, the state of public sentiment and the convictions of the premier and other members of the cabinet of dominating questions of the moment. They were prepared with a variety of materials and derived frequently from personal contact with the leading figures of the war and appear to have been of uncommon value to the president.

Mr. Wilson has taken occasion to remark on the value of this assistance. Besides dealing with many delicate political questions which arose between the United States and France before America's entrance into the war, Ambassador Sharp had also to take up with the French government problems concerning the career of enemy prisoners in France.

Mr. and Mrs. Sharp probably will leave for America before March 15.

## LIVES 101 YEARS; IS OBSERVING BIRTHDAY

To reach the century mark is unusual but to add unto it another year, rarely happens, and today John Hatfield, who lived at the home of his daughter, Mrs. E. Cunningham in Central City, is celebrating his 101st birthday anniversary.

Mr. Hatfield was born at Harrisburg, Pa., Feb. 17, 1818 and came to Ohio when he was seven years old. He has been privileged to see the world make its greatest strides in progress, and history in the making.

## HIDE EDDIE FROM CROWD 'TIL TIME FOR BIG PARADE

Ace of Aces Is Honored By Fellow Townsmen In Big Parade

GETS OFFER OF \$50,000 FOR FIFTY LECTURES ON TOUR

Went to France as Auto Driver, Came Home Greatest Air Hero

## ASSOCIATED PRESS TELEGRAM

Columbus, Feb. 17.—Captain Edward V. Rickenbacker, American ace of aces arrived here this morning from Washington and was met by a reception committee composed of his fellow townsmen. The premier flyer was immediately hustled away and was kept in retirement until the official greeting of Columbus was given him this afternoon by a parade in which more than a half hundred organizations took part.

The mayor declared a half holiday in order that the entire city might honor Rickenbacker.

The Columbus Automobile club had the celebration in hand. A banquet will be given in the evening and tonight, more than fifty aviators are expected to attend.

Rickenbacker went to France as General Pershing's chauffeur. He soon went into the air service and after he received his commission as first lieutenant, was made an instructor at an aviation camp in France. Shortly he went to the front where he won the premiership of American aces by shooting down 26 Hun.

Upon his arrival in Columbus it became known that Rickenbacker has been offered a \$50,000 contract for a lecture tour of fifty lectures in fifty of the principal cities of the country. This offer was made to him in Washington by Cohen and Zanes, theatrical managers.

## ROTTERDAM BRINGS IN 2736 OVERSEAS MEN

## ASSOCIATED PRESS TELEGRAM

New York, Feb. 17.—The steamship Rotterdam arrived here from Brest today with 2,736 troops, including 13 French enlisted men.

Among the units were the field and staff headquarters company, medical detachment and companies G, I, K, and L and M of the 367th infantry (negro) National Guard troops of Washington, Oregon, Montana, Idaho and Wyoming) and casuals.

The steamship Dante Alighieri arrived with 1,500 troops, including the 61st regiment coast artillery corps complete; three officers and 38 men of the U. S. Scorpions who were at Constantinople during this war and a number of civilians including Y. M. C. A. workers. The vessel sailed from Marseilles, Jan. 30. The Sixaola brought 47 casual officers and men, 19 of whom were sick or wounded. The vessel left Bordeaux Feb. 2.

## ASSOCIATED PRESS TELEGRAM

Columbus, Feb. 17.—Harvey C. Smith, Republican of Zanesville, filed his bond in the sum of \$100,000 with the auditor of state today and was expected to be sworn in this afternoon as secretary of state, succeeding William D. Fulton, Democrat, who contested Smith's election and lost in the supreme court last week.

Smith has resigned as probate judge of Muskingum county and Governor Cox is expected to appoint Robert T. Crew, former executive clerk in the governor's office as Smith's successor.

## GAS RATE ORDINANCE ON THIRD READING

There will be a regular meeting of the city council this evening at which time the gas rate ordinance will be given its third reading and placed upon final passage. Its fate is problematical as the various members of council have not declared as to how they will vote on the proposition. A circus license ordinance will also be introduced raising the city license from \$50 to \$150 for all circuses charging in excess of \$1 for admission and reserved seats, which means that the big circus will have to pay an additional \$100 to doing in this city. No ordinance raising the price of street car tickets from five to six cents has been prepared, or rather been left with clerk of council for introduction.

## SOLONS MAY HAVE VISIT FROM HERO

## ASSOCIATED PRESS TELEGRAM

Columbus, Feb. 17.—The Ohio General Assembly entered upon the seventh week of the session today. Both houses were scheduled to convene at 5 o'clock. It was said that Captain Edward V. Rickenbacker might pay a visit to the assembly this evening in response to the invitation extended him by both houses last week.

The joint temperance committee of the legislature was advised today that a vigorous protest will be made tomorrow by a delegation of former soldiers and sailors from Toledo, representing the soldiers and sailors suffrage league against prohibition measures, and against the passage of the proposed prohibition enforcement laws as emergency measures thus preventing a referendum on the bills.

## Eddie Says "Thank You" When Newarkite Asks to Shake Hands With Real Man

Newark entertained the "ace of aces" for a few minutes this morning.

Eddie Rickenbacker en route from Washington to Columbus, his home, was at the Pennsylvania station this morning at 10 o'clock and was greeted by a number of Newark people who had learned that he would go through the city.

As the train pulled into the station the crowd reviewed the Pullmans and Eddie stepped onto the platform with his ever-ready smile and his hand extended in greeting. Instead of seeming bored after being feted ever since his arrival in this country he seemed really glad to see everyone and pleased to take each one by the hand.

Rodney McFarland, a former employe of the Columbus Buggy company, where Eddie got his start, and now employed at Spillman's, was at the train and talked with his old co-worker.

A dignified middle-aged man said: "I want to shake hands with a real man." And Rickenbacker replied: "Thank you," and warmly responded to the handshake.

After greeting all the crowd Rickenbacker stood at rigid salute and retired to the Pullman.

Rickenbacker is to be tendered an enormous reception at his home-town—Columbus—this afternoon. When the whole city will do honor to the man who has the honor of bringing down the greatest number of boche machines and who wears numerous decorations.

## NEW SOLUTION TO RUSS PROBLEM IS SOUGHT AT PARIS

Failure of Prinkipo Conference Makes Other Action Necessary

GREAT BRITAIN WOULD RENEW THE INVITATION

Special Commission May Get in Touch With Opposing Factions

## ASSOCIATED PRESS TELEGRAM

Paris, Feb. 17.—Attention of the delegates to the peace conference will focus on Russia today, the supreme council having decided that, as the time allowed for acceptance of the invitation to the Prinkipo conference has expired, something else must be done.

Winston Spencer Churchill of Great Britain has proposed that the invitation be renewed and that some of the conditions that made the first invitation unacceptable to most of the different Russian factions be omitted. If the supreme council accepts this position, a seems possible, it probably will not insist that the conference be held at Prinkipo Island. It is possible that instead of a general meeting of the representatives of Russian factions, direct negotiations may be initiated or commission will be appointed to get in touch with the opposing elements there.

It is feared that the conference at Prinkipo is still acting as a barrier between the commission and the conference.

The commission of the inter-allied women's suffrage congress, which has been interviewing statesmen in search of support for President Wilson's plan to give women representation in the conference and in the league of nations has achieved a great success in the estimation of its members. Satisfactory assurances have been given by President Wilson, and Jules Cambon, one of the French delegates to the peace conference, and by Foreign Minister Hymans of Belgium. Premier Clemenceau, in addition, has promised to support a bill giving women the right of municipal suffrage while the peace conference is in session.

**Pussy's Whiskers.**  
Although hirsute adornments of all kinds, whiskers included, were once he real and indispensable thing, modern sanitary practice has made such adornments on unharvested beards and long hair that only a few scattered humans still retain their hairy luxuriance. Notwithstanding this, however, the house cat has grown and nurtured its crop of whiskers or feelers for the last million years or so without bothering about hygiene. Naturalists say that the cat's whiskers are absolutely necessary to it. The whiskers are as long as the cat's head is wide, and the head is as wide as the body, so wherever the whiskers go there may the cat go also. The tiny, delicate hairs grow from a gland and are served to the utmost sensibility. No matter how light the touch of the hair against an obstacle it is instantly felt by the cat.

**Interesting Relic.**  
Curiously marked, a stone found in Wick harbor, is pronounced by Doctor Curie of the National Museum of Antiquities, Edinburgh, to be a super-alter of close-grained sandstone, possibly of fifteenth century date. When it was inconvenient for the bishop of a diocese to attend personally and consecrate an altar, a small portable altar such as this was consecrated, and sent to be sunk into the altar requiring consecration. Scotland has hitherto possessed only two super-altars of the kind. The relic has been retained for the National museum, and a cast of the stone has been returned to the Wick museum. The stone is about five inches square, with five Greek crosses cut upon it.

**Leader or Follower.**  
Every man will be expected to contribute his quota to the new era. The Old Book is right when it says, "No man liveth to himself." Influence of deal and conduct must be made to administer to world betterment. The time has come when it will no longer allow a man to criticize in his neighbor the petty things he practices in his own life. Each man will be expected to be a leader in his line. If he can't be this he will have to be satisfied with following the lead of others in both position and pay. And few men want to do this. But the law is inevitable. Man must either produce or become a follower. Valuable as some men are they can never claim equality with the men of initiative and daring who blaze the trails to human progress.

**Music.**  
Music is the crystallization of sound. There is something in the effect of a harmonious voice upon the disposition of its neighborhood analogous to the law of crystals. It centralizes itself and sounds like the published law of things. If the law of the universe were to be audibly promulgated, no mortal law giver would suspect it, for it would be a finer melody than his ears ever attended to. It would be sphere music. When I hear music I feel no danger. I am invulnerable. I see no foe. I am related to the earliest times and to the latest.—Thoreau.

**Age to Begin Study of Music.**  
You cannot start a child too early in the elementary knowledge of music, many great artists have been quite proficient before they had entered their teens, and if a child shows talent or a disposition to learn, it should be encouraged. Let the lessons be short, also the time of practice. In the early stages the pupil should be under constant observation so that no bad habits are formed, this will eventually save time, and the common experience of having to unlearn faults which have been acquired through neglect in the early stages of study.

## PLAY BASEBALL IN FLANDERS

Canadians Take the Great American Game Over Sea and Introduce it in the Fighting Zone.  
The baseball season has opened in Flanders. The roar of cannon can be heard above the crack of the bat and ball, and spectators and players have a lively time of it.  
The great American game has been taken over to Europe's fighting zone by the Canadians.  
Each major unit of the Dominion forces has its team, and a series of games has been scheduled. Prolonged battles or great advances will, of course, interfere with the schedule, but nevertheless the games have been arranged for and are eagerly anticipated. The baseball outfits, including uniforms, bats, balls, gloves and all the rest have been sent over by patriotic Canadians. The news of victories on the diamond behind the lines travels quickly to the men in the trenches, where many a cheer has gone up, to the astonishment of the Germans, who on frequent occasions have taken this outburst of enthusiasm to be the forerunner of an attack. Undoubtedly our boys in khaki will go over to Europe well provided with baseball kits, and there will be some lively battles going on behind the lines while the other more deadly contest is fought at the front.

## CITY GIRLS LEARN FARMING

After Period of Training They Are Taking Places of Men Who Are Needed in War Work.  
There is a 200-acre farm in Westchester county, New York, where 50 girls are learning to be farmers. As soon as they have a knowledge of any kind of work they hire out to the neighboring farmers for 20 cents an hour, to take the place of the men, who are needed for other kind of work in this busy war time.  
An employment bureau to supply women for this kind of work in New York state is being established by the standing committee on agriculture of the mayor's committee of women on national defense, and it has been proved that there is not only a demand but a supply of woman farm workers.  
Some of the girls at the Westchester camp are college girls and they all wear blue shirts and overalls, except the dieticians from Teachers' college, who wear white. They get their board and rooms at the Westchester farm while learning and 50 cents a day. Next year these girls will be competent to start other agricultural centers. They begin with a few hours of work each day and increase it until they can work up to the hours of a man of normal strength.

**Hurled Into Sunshine.**  
"I was in Petrograd during the first appraisal of the new assets," writes Isaac F. Marcossian in Everybody's. "Like prisoners long immured in the dark and suddenly hurled into the sunshine, the people blinked in the strange light of their unfamiliar emancipation. The onetime bailliwicks of the czars was a study in scarlet—animate like an American city during a national convention. Its great thoroughfare—the Nevski Prospekt—once the Street of Sacrifice, was now the Highway of Happiness. Never was there such glad reunion. It was like the meeting of lost tribes after much wandering in the wilderness. Exiles streamed in from Siberia under the general amnesty; Jews came forth from their long restraint, for creed lines were down; delegations of troops flocked from the front. Equality was the password that loosed every tongue."

**Gunfire and Rainfall.**  
Investigations to determine whether intense and prolonged gunfire really influences rainfall, as is so often asserted, have been proposed by the Paris Academy of Sciences. Ionization of the air is produced in various ways by artillery discharges, and it is regarded as theoretically probable that this may lead to precipitation in air charged with moisture. It is believed, however, that the influence could apply only to small falls. The effect of even great battles must be merely local, and heavy and prolonged rain can only be explained by the action of large atmospheric currents.

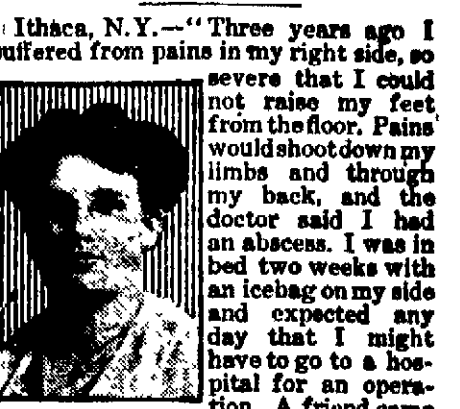

**Siberia Adopts Gregorian Calendar.**  
Vladivostok Journals announce the abolition of the "old-style" calendar; all dates have been set forward to the "new style." The Japan Chronicle assumes that "this reform will carry with it an abolition of religious holidays hitherto enforced in Russia." A working year in old Russia consisted of about 200 days; heavy fines were imposed for working on religious holidays. Those restrictions are now gone forever.

**Receive Equal Wages.**  
The fourth Irish Teachers' congress was held recently in Dublin and it is interesting to know that the women teachers of Ireland receive the same pay as the men for the same kind of work. English women teachers have tried to obtain the same pay but Ireland was first in having the demand for fair pay backed by the entire organization.

**His Scheme.**  
"How in the world do you manage to keep your cook so long?"  
"My husband has promised her that if she is working for us when we strike oil he will buy her an automobile."  
"But I didn't know you had any oil prospects."  
"We haven't."

## DRESSMAKER SAVED FROM OPERATION

By Taking Lydia E. Pinkham's Vegetable Compound in Time.

Ithaca, N.Y.—"Three years ago I suffered from pains in my right side, so severe that I could not raise my feet from the floor. Pains would shoot down my limbs and through my back, and the doctor said I had an abscess. I was in bed two weeks with an ice bag on my side and expected any day that I might have to go to a hospital for an operation. A friend came to see me and told me of your wonderful medicine—Lydia E. Pinkham's Vegetable Compound. I began taking it, and after taking six bottles I feel well and strong, do my own work and do dressmaking for others. I cannot speak too highly of your medicine and recommend it to others who suffer with female trouble. It is a Godsend to ailing women, and you may use my name at any time."—Mrs. PERMILLA HULSHIZER, 218 E. Fall St., Ithaca, N.Y.

## FOR STUBBORN COUGHS AND COLDS

Dr. King's New Discovery has a fifty year record behind it

It built its reputation on its production of positive results, on its sureness in relieving the throat irritation of colds, coughs, grippe and bronchial attacks.  
"Dr. King's New Discovery? Why, my folks wouldn't use anything else! That's the general nation-wide esteem in which this well-known remedy is held. Its action is prompt, its taste pleasant, its relief gratifying.

NEW WAY of heating CELLARLESS Houses—World's New—Greatest Invention!

Simple way of heating a four-room cellarless cottage by IDEAL ARCOLA Radiator-Boiler and three AMERICAN Radiators.

Easy heating of a cellarless office building by our IDEAL ARCOLA Radiator-Boiler and two AMERICAN Radiators.

IDEAL ARCOLA hot water radiator-boiler

Puts IDEAL HOT WATER HEATING comfort in workingman's cottage, cellarless small stores, country schools, cellarless churches, etc.

The IDEAL ARCOLA takes the place of a parlor stove. But a stove wastes much of its heat up the chimney, whereas the IDEAL ARCOLA conveys its heat by hot water circulation through pipe-connected AMERICAN Radiators stationed in the adjoining rooms. Every bit of the big volume of heat developed from each pound of fuel is therefore made useful in keeping ALL the rooms uniformly, healthfully warm. There is no coal-waste. The IDEAL ARCOLA does not rust out or wear out—will outlast the building—is a genuine, permanent investment!

Shipped complete ready for immediate operation

The beauty of the IDEAL ARCOLA method is that no cellar is needed. Everything is on one floor. The Arcola is placed in any room that has a chimney connection. No running to cellar. If there are two or more tenants in the building, each can have his own Arcola and make the temperature to suit his own needs—can make his own climate! If you do not wish at first to heat the entire building, buy a small size IDEAL ARCOLA and later on buy extra sections for the IDEAL ARCOLA and two or three more radiators to warm other rooms.

Cleanly heating—healthful heating—free from fire risk!

Unlike stoves, there are no coal-gas leaks into the living-rooms. The IDEAL ARCOLA delivers soft, radiant warmth—not the dry, burnt-out atmosphere of stove heating. There is no fire-risk to building—no danger to children—burns hard or soft coal or coke—fire lasts for hours! The Arcola changes a house into a cozy home! Buy it NOW, at today's attractive figure.

Put in quickly without disturbing your stove till ready to start fire in the new outfit. Sold by all dealers. Send for catalog "Ideal ARCOLA Hot Water Heating." Phone or write today!

## A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

Says Dr. F. M. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women as well as men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep in the pink of condition, 10c and 25c per box. All druggists.

## If He Drinks

## Give Him TESCUM POWDERS Secretly

Any mother, wife or sister can stop the drink habit, if she wants to do so. Thousands of wives are happy today, because they gave their husbands, the lot or brothers, "Tescum Powders." The powders are tasteless and harmless and can be given in either liquid or solid food.

You take no risk as Tescum Powders are sold under a steel bonded money refund guarantee by T. J. Evans and other druggists.

## LOOK AT CHILD'S TONGUE IF SICK CROSS, FEVERISH

When constipated or bilious give "California Syrup of Figs."

Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, don't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad, has stomacheache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of his little bowels, without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless "fruit laxative," they love its delicious taste, and it always makes them feel splendid.

Ask your druggist for a bottle of "California Syrup of Figs," which has directions for babies, children of all ages, and for grown-ups plainly on the label. Beware of counterfeits sold here. To be sure you get the genuine, ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

## United States Gold Coins.

The first American gold coinage of eagles, half-eagles and quarter-eagles of the value of \$10, \$5 and \$2.50, respectively, was placed in circulation 126 years ago. One and three dollar gold pieces were formerly coined, but they were discontinued in 1830. The first coin called an eagle was used in Ireland in the thirteenth century, and was so called from the figure of an eagle impressed upon it, but it was made of base metal. The standard of the eagle was borne by the ancient Persians, and the Romans also carried gold and silver eagles as ensigns, and sometimes represented them with a thunderbolt in their talons. Charlemagne adopted the double-headed eagle as the standard of the Holy Roman empire. The eagle was the standard of Napoleon I and Napoleon III, as well as of Austria, Prussia and Russia.

## Frogs as Wasp Eaters.

The common green frog has been discovered to possess an insatiable greed for wasps. This extraordinary appetite does not seem to be in the least checked by an occasional sting. The protecting color of the frog, which sits motionless upon leaves, no doubt facilitates the most wary of insects into a sense of security.—Nyxack Evening Journal.

A fat girl is always good-natured. Try to sit on an angular one and you'll find her too sharp for you.

## SICK WITH A COLD? HEAD STOPPED UP? TRY "NOSTRIOLA"

Don't Risk Getting the "Flu" Or "Grip"—Watch the Danger Sign—Take No Chances.

A small tube of NOSTRIOLA BALM or a bottle of Liquid NOSTRIOLA will keep the whole family free from colds for months, and there is no better preventive known.

Dangerous disease breeding germs reside in the nose and throat, and all should use NOSTRIOLA daily to cleanse and purify the linings of the passages where the attack is made.

Get NOSTRIOLA Balm, or a physician's size bottle of Liquid NOSTRIOLA (use any good oil atomizer from your druggist store), and let every member of the family start using it. NOSTRIOLA costs but a trifle. Sold here by T. J. Evans and all good druggists under money-back guarantee.

PLEASE try our new mustard preparation, "MUSTERPEP" (grape-juice). It's different. It's fine. It's got the "pep" and you'll prefer it. Refuse if not in red, white and blue package, or send 30c stamps to NOSTRIOLA Balm Co., Wheeling, W. Va. for jar. 2-17-19

## The Polka Dot.

Because in 1835 a Bohemian peasant girl danced a new step in a little village near the Polish border a Hungarian dancing master introduced it in Europe under the name of Polka, which is the feminine of Polak or Pole. By 1844, at the time James K. Polk was running for the presidency, the dance had spread to America and the name "Polk" and the word "Polka" formed a coincidence at once appealing to everyone. The manufacturers, merchants and designers immediately presented Polka hats, Polka shoes, Polka gause and the "newest design in fabrics for gentlewomen."

## The City of Light.

To me the real Ville Lumiere is New York. It scatters lights with the prodigal richness with which the heavens scatter stars. It strings them in long lines; it banks them in towering facades; it flings them in handfuls up into the darkness; it writes them on the sky. Twilight offers you a special beauty because wherever you are in the city it brings out for you in one window or another that first wan, primrose-colored beacon—in some ways more beautiful than the evening star. Behind the star you don't know what there is.—From "The City of Comrades," by Basil King, in the Saturday Evening Post.

It's the early bird that rises to the occasion.

## "INTERNAL BATHS" PUT ME IN THE BEST OF CONDITION

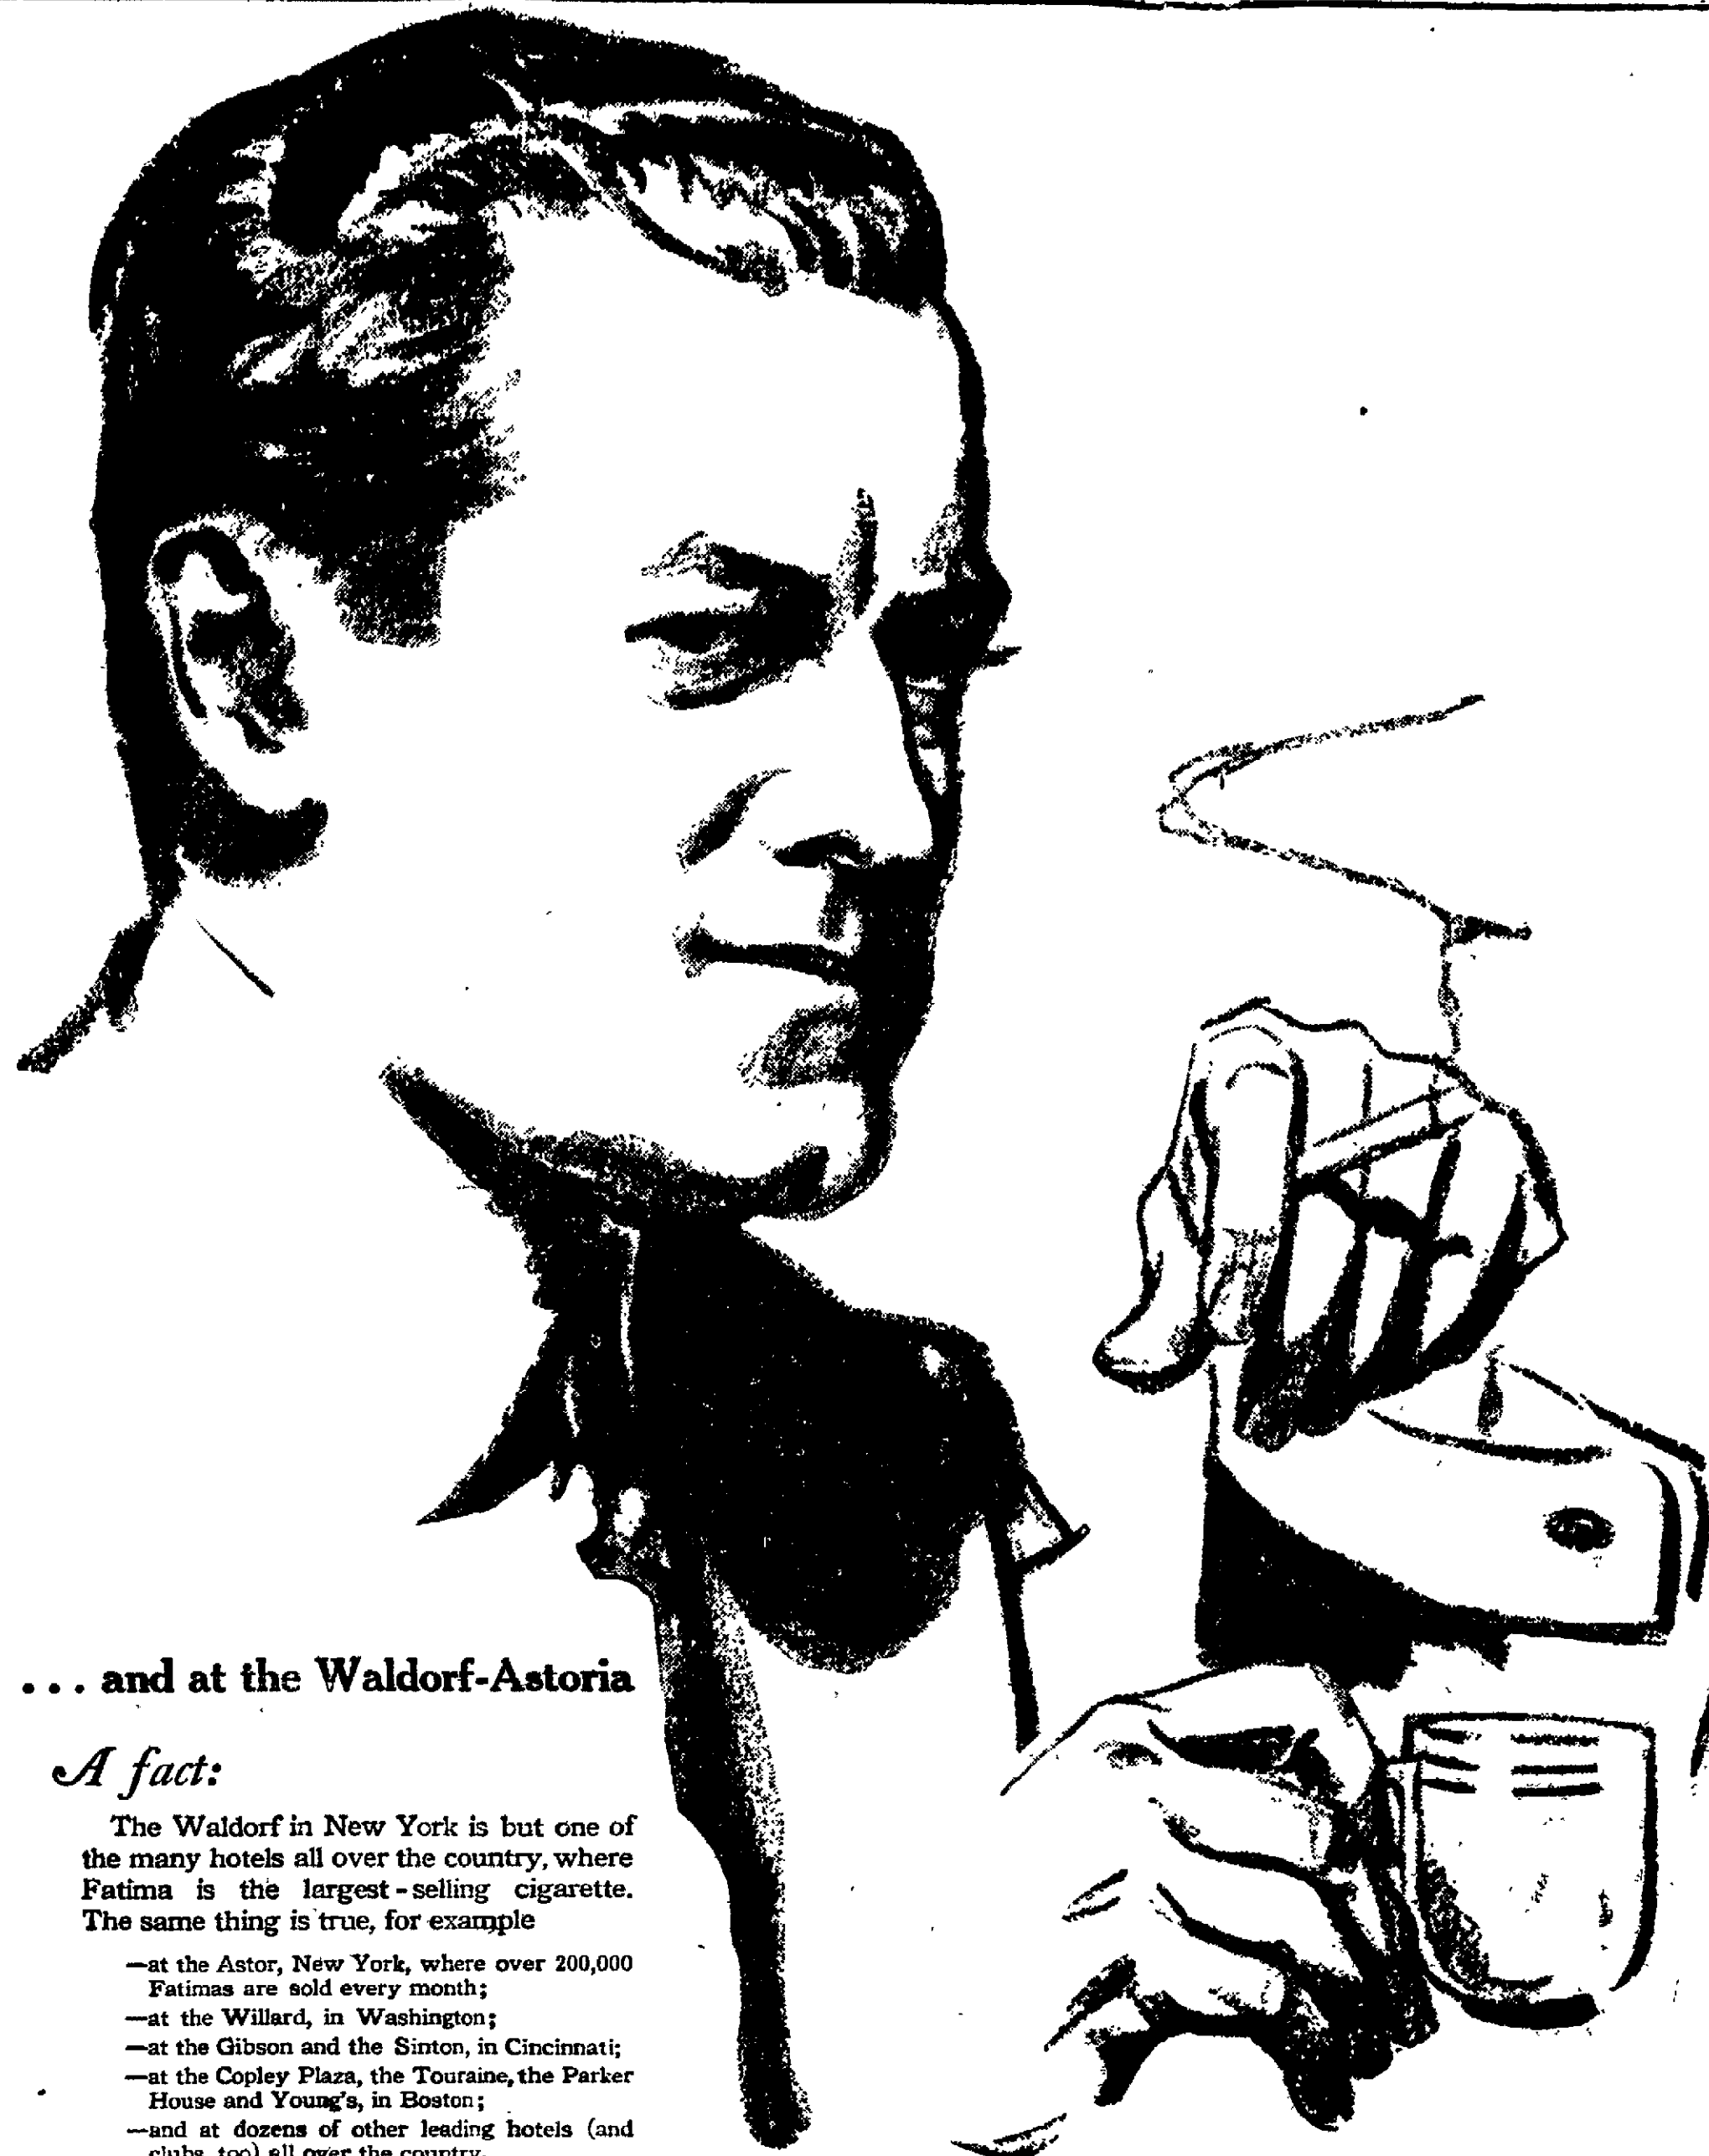

Jas. S. Sheridan, Chief of Police, writes Tyrrell's Hygienic Institute of New York as follows:

"Should I withhold the knowledge I have of the J. B. L. Cascade and the wonderful benefits I have received from same, I would be guilty of withholding knowledge that proves in general should have. I was troubled with chronic constipation, liver and bowel trouble. I have used the 'Cascade' for a number of years and now find myself in the best of condition. Previous to the use of the Cascade the pains in my back and bowels became very annoying, but since using the 'Cascade' those troubles have entirely disappeared."

This is but one of thousands of the same kind of letters received by Dr. Chas. A. Tyrrell of New York, the inventor of the "J. B. L. Cascade."

By a purely natural process of properly using warm water, the "J. B. L. Cascade" removes all the poisonous waste from the lower intestine, which physicians agree is the cause of 95% of all human ailments.

Hudson Avenue Pharmacy, R. L. Williams, proprietor, 222 Hudson avenue, corner Oak street, Newark, O., have filled an enormous demand for "J. B. L. Cascades" in the past few years, and will show and explain it to you on request. An interesting booklet on Internal Bathing—"Why Man of To-Day Is Only 50% Efficient"—can be obtained at their store free of any cost.

... and at the Waldorf-Astoria

## A fact:

The Waldorf in New York is but one of the many hotels all over the country, where Fatima is the largest-selling cigarette. The same thing is true, for example

- at the Astor, New York, where over 200,000 Fatimas are sold every month;
- at the Willard, in Washington;
- at the Gibson and the Sinton, in Cincinnati;
- at the Copley Plaza, the Touraine, the Parker House and Young's, in Boston;
- and at dozens of other leading hotels (and clubs, too) all over the country.

Liggett & Myers Tobacco Co.

## FATIMA

A Sensible Cigarette

NOTE—At such places as these, low price doesn't count. Fatimas lead in sales, not because of their low price, but because men PREFER them to higher-priced cigarettes. They prefer Fatima's taste; and they find that Fatimas treat them right.

AMUSEMENTS

GEM.

Especially alluring sounds the announcement that Jane Canrice is soon to be seen at the Gem in a new Fox offering, "Miss Innocence." The play is said to give her opportunities for display of talent, as well as looks, far beyond any previous one in which she has appeared. "Miss Innocence" will be at the Gem Tuesday.

LYRIC.

Tonight is the opening of Rube Fulkerson's Ginger Girls musical comedy. All theatregoers of Newark remember Rube Fulkerson—no introduction is necessary—and the show comes from Zanesville from a six weeks' run, highly recommended. Each and every person is versatile in his or her respective part. Hear the Jazz Trio, three male members who drive away all blues. Baby Mary Fulkerson will be remembered by all in her songs and

dances. Mr. Stone, the juvenile man, was a late member of the Nancy Roper Stock company. Mr. Fithen, character comedian and animal imitator, Miss Rae Keith, the hit's cyclone sombrero, late of the winter garden show, in classic songs and dances. The opening bill for Monday is as usual three comedies, "Down on the Farm," with special scenery and wardrobe for each bill. Special vaudeville specialties by members of the company, some prizes, and bills changed three times per week. Big twelve Oh Henry Comedy, entitled "Tootsie's Turns." Don't miss the opening bill.

AUDITORIUM.

"The Forbidden City."

Norma Talmadge will be seen at the Auditorium theatre today and tomorrow.

dears Wong Li's and San San's death, but saves little Toy, her daughter, to become the court fool as a warning to his subjects.

A comedy, also Pathe News are added features.

"Charley's Aunt."

Announcement is made that the seat sale for the "Charley's Aunt" performance at the Auditorium on Thursday afternoon and evening will open at the box office tomorrow morning. What a mistake it is to suppose that modern audiences have lost their taste for clever, wholesome comedy with music. The reception of "Charley's Aunt" the world over and the enthusiasm with which it is greeted by amusement seekers everywhere, prove that wholesome comedy, thoroughly well done, is still popular. "Charley's Aunt" is as sweet as a nut, absolutely clean and entirely amusing. Audiences simply roar at its grotesque, balcony and gallery alike being overcome. It is a most deliciously humorous performance. The story

traced by Gladys Brockwell in "The Call of the Soul," the William Fox production which opens Wednesday at the Alhambra theatre.

The play reveals some of the problems that women must face under the conditions of sex inequality. It is a woman's play that bears a great message for men and women alike.

Miss Brockwell is known for her remarkable portrayal of intensely dramatic roles, and here is a theme after her own heart.

"The Light of Western Stars."

It's a long way from London to Los Angeles, and a long step from "stock" actress to leading woman for Dustin Farnum, but neither was too long or too difficult for pretty, vaudeville Kingston once she set her ambition to work. Miss Kingston is the charming and lovable heroine in "The Light of Western Stars" which comes to the Alhambra theatre for two days, starting today.

In the role of "Majesty," the young actress portrays one of the most en-

Youth Craft FOR THE HAIR AND SCALP

MEANS No more dandruff No more itching scalp No more falling hair

Takes two minutes to apply and won't stain pillows if used at night.

A colorless, odorless, water-like liquid containing no oils, no fats, no dyes, and only 1% alcohol.

Makes women's hair fluffy, and frequently restores prematurely gray hair to its old-time natural color.

Instead of shampooing children it is wise to use Youth Craft on their heads every two to four weeks. It will keep the scalp white and clean, invigorate the hair-roots, and tends to equip the scalp for life's battles with tight hats and "mar-cell" treatments.

Every user of Youth Craft has better and healthier hair than his neighbor. It insures hair health. Inquire at your druggist's.

row in her latest Select Picture, "The Forbidden City," in which she is presented in the dual role of San San and Toy, by Joseph M. Schenck. The story is by George Scarborough. It was directed by Sidney A. Franklin.

San San is the daughter of Wong Li, a Chinese mandarin who has been banished from royal favor. He has gone to a remote port where he gives lessons in Chinese to foreign students. It is here that San San makes the acquaintance of John Worden, a young man attached to the U. S. Consulate. Later San San and Worden marry secretly, after which Worden leaves on a short business trip. In the meantime Wong Li has discovered the secret marriage and has hurried away with San San. When Worden returns he is unable to find her, and shortly after is sent away on another mission.

Succeeding events find Wong Li and San San at the emperor's court. San San has given birth to a baby girl. When the emperor learns of this he or-

might be told here but that would only spoil the surprise that is in store for you.

"The Smarter Set."

America's greatest aggregation of Afro-American Thespians will be the attraction at the Auditorium next Monday afternoon and evening. The exalted standing and reputation of "The Smarter Set," and the extraordinary excellence of the happy flock of singers, dancers and comedians, together with the phenomenal success of their performances, makes the appearance of this remarkable company in this city an event of public interest. Their remarkable triumph in all the leading cities of the country is without parallel.

ALHAMBRA.

"The Call of the Soul."

She has no wedding ring. That is enough to condemn any woman who is a mother. The anguish which such a woman suffers is in-

creasingly appealing characters ever written by the popular western author, Zane Grey.

Miss Kingston is a skilful athlete as well as an accomplished scholar. In fishing, riding and shooting she early acquired a proficiency which in addition to being healthy recreation has stood her in good stead in the practical equestrian demands made upon her in her role in "The Light of Western Stars."

A Matt and Jeff comedy is also seen.

"The Firefly of France."

Events aboard a seaplane bound for Europe afford many evidences of the skill with which Paramount pictures are produced, and these are shown in "The Firefly of France," which stars Wallace Reid with Ann Little and which will be seen at the Alhambra theatre next Friday. In these scenes the work of a German spy is also depicted graphically, and the picture abounds in thrills from beginning to end.

"The Master Mystery."

Mr. Fenberg announces the first showing of the greatest serial ever offered to picture fans, it being "Houdini" in "The Master Mystery." This serial is now running in the largest and best theatre in the country, and it comes to Newark next week. It will be shown for 15 weeks the first three reels starting on February 26-27th at the Alhambra.

The Profitable Nickel.

Like the humble cent, the increased coinage of which was recently mentioned in this column, the nickel is in greater demand than ever. That is fortunate for the face value of those "token coins" is so much greater than the value of the metal they contain that the profit in manufacturing them, together with a slight profit in manufacturing the minor silver coins, more than meets the entire running expenses of the mint.—Youth's Companion.

## WAR-TIME ROMANCE OF PRINCESS PATRICIA OF CONNAUGHT AND COMMANDER ALEXANDER RAMSAY OF THE BRITISH NAVY

Beyond doubt, no princess is better known in Canada and the United States than Princess Patricia of Connaught (or Princess "Pat," as she is more popularly called), and her romance, culminating Feb. 27 in her marriage to Commander Hon. Alexander Robert Maule Ramsay, D. S. O., brother of the thirteenth Earl of Dalhousie, has attracted wide attention. Cousin of King George, daughter of the Duke of Connaught, and patroness of the famous Princess Patricia's Canadian Light Infantry ("Princess Pat's") to whom she gave the colors under which most of the regiment made the supreme sacrifice, her beauty, her gracious character,

and her cleverness have made her a world-wide celebrity. The romance began in Canada when Commander Ramsay was an aide to the Duke of Connaught, then governor general. When the great war started, Commander Ramsay promptly returned to active service in the Royal Navy and won the Distinguished Service Order for valorous work at Gallipoli. The princess is domestic and a very clever needlewoman, making many of her own garments. She is fond of out-door sports and during her tour of Canada with her father, the governor general, she rode her spirited horse over the mountains at

Banff Springs, Alberta, beat her father at golf on the local golf links and gave an exhibition of expert swimming in the big swimming pool of the hotel. The spirit of democracy now so conspicuous in Canada must have been breathed in with the bracing Canadian air by the princess, for she refused to wed at least two kings and chose instead an untitled but heroic member of the king's navy. She has asked for and received the consent of all her titles, princess and royal highness, and she will hereafter be known as Lady Patricia Ramsay.

## START A CLUB FOR THAT SOLDIER OR SAILOR BOY

There is nothing mysterious or complex about a "Bring 'Em Back" club. It is simply an organization of War Savings Stamp purchasers formed to complement those now in service. This is the way to proceed: Telephone Auto 23124, or see C. H. Spencer, and obtain application blanks. Fill in the name of the soldier or sailor whom you wish to honor, then obtain pledges for the purchase of \$500 worth of W. S. S. The purchaser of a single \$5 stamp may become a member of the club. No one person is allowed to buy more than 200 stamps of the 1919 issue.

When pledges amounting to \$500 are obtained, the blanks are returned to the chairman who sends a copy to the soldier after whom the club is named. The organizer receives a charter which is to be presented to the soldier or sailor upon his return home. The names of the Licking county soldiers

and sailors after whom "Bring 'Em Back" clubs are named, will be painted upon the bulletin boards in the court house park.

Ex-Sheriff Smith L. Redman, who obtained application blanks a few days ago for the organization of the Howard L. Keller "Bring 'Em Back" club, has sent in the completed list of names of those comprising the Keller club. They are: Smith L. Redman, R. L. Rhodes, Chas. J. Keller, H. W. Mackenzie, Jas. R. Cooper, Mandel Blashear, C. F. Dean and Jas. W. Passman. A copy of the application for charter showing the names of the club will go to Mr. Keller and Mr. Redman will present to Keller the club charter upon his return home.

George Hermann, who organized a "Bring 'Em Back" club for Eppe Freiler by buying all of the stamps himself, called at W. S. S. headquarters Saturday for a half dozen more application blanks for the purpose of forming clubs in honor of six more Licking county soldiers.

Gus Weigand of the Midland Shoe company, Guy Watkins of the Newark Telephone company, W. F. Eilber, the Arcade tailor, John A. Wintermute the insurance man, Fred S. Wright, pres-

ident First National bank; Mrs. Fern Shriader, 553 Mt. Vernon road; Charles C. McGruder secretary of the Home Building association, George Hayden, the insurance man, and C. E. Frye, newsdealer, are among those who have just recently started to organize "Bring 'Em Back" clubs.

Karl Reimbold has the organization of four "Bring 'Em Back" clubs well under way.

Frank L. Beggs has already organized two "Bring 'Em Back" clubs and is just getting started.

Attorney A. A. Stasel is forming a club in honor of Lieutenant Louis Mitchell.

A "Bring 'Em Back" club should be started for every Licking county soldier and sailor who is now in service. Get the application blanks. It will be easy to obtain pledges amounting to \$500 worth of W. S. S. Last year the people of Licking county bought \$1,500,000 worth of War Savings Stamps.

Geo. M. Fenberg completed the organization of the Phil W. Jones "Bring 'Em Back" club, Saturday night, and is now working on his third club. Mr.

## MOUNT VERNON BOY DIES AT CAMP SHERMAN

Charles Ransom, a private in Company C, 330th regiment, 82nd division, was killed at Mt. Vernon today. He died Friday night of double pneumonia and scarlet fever at the base hospital at Camp Sherman, having returned from overseas only a week before. Ransom was known to many Newark people. He was a bricklayer before entering the army with a draft certificate from Mt. Vernon last spring. He went overseas with his regiment last June.

He was employed in Newark several times, having helped with the construction of the Lythman building and the Cherry Valley school. He was more recently employed in Canton.

He is survived by his widow, his parents, and four brothers, one of whom is with the artillery brigade of the 27th division, being a member of the battery from Mt. Vernon.
